SUMMARY

A proactive and skilled Developer with expertise in the MERN stack (MongoDB, Express.js, React.js, Node.js). Experienced in building dynamic web applications with a focus on scalability and user experience. Completed Master of Computer Applications (MCA) with a strong foundation in software development and a commitment to delivering efficient, user-friendly solutions.

SKILLS

Programming Languages	Python, HTML, CSS, JavaScript
Frameworks	Express.js, Tailwind CSS, Bootstrap
Libraries	React.js
Developer Tools	Git, VSCode
Databases	MongoDB, SQL

INTERNSHIP

Front-End Developer Intern Skill Craft Technology	OCT 2024
---	----------

- Designed and deployed a functional To-Do List application while contributing to additional web-based projects.
- Improved UI responsiveness and cross-browser compatibility, enhancing overall user experience.

PROJECTS

Restaurant Web Application GitHub Repo — Live Demo	JUL 2025
--	----------

- Developed a full-stack restaurant application using the MERN stack with APIs for menu and orders.
- Built a responsive UI with React Hooks and CSS, ensuring smooth user interaction and performance.

E-commerce Website (MERN Stack) GitHub Repo — Live Demo	AUG 2025
---	----------

- Designed and implemented a scalable MERN-based e-commerce platform with CRUD operations for products.
- Built a customer-facing UI for product browsing and cart features, and an Admin Panel for inventory management.

EDUCATION
